

A large, ancient tree with thick, gnarled roots growing out of a mossy rock in a dense forest. The roots are exposed and spread across the rock face, some reaching down towards the ground. The forest is lush with green foliage, including various trees and undergrowth. The lighting is soft, suggesting a shaded forest environment.

# Questions to Consider

RESILIENT  
FAITH

What is “taking you out”  
of the game, of life, of  
love? What is your story?
